# APPROVED

**At a special meeting of the State Board, November 17**

## CALIFORNIA ADOPTED

# McMURRY & PARKINS' ADVANCED GEOGRAPHY

*No adoption of an elementary text was made at this time on account of lack of available funds.*

**CALIFORNIA** with a population of 3,427,000 in 1920 ranks among the foremost states educationally. The high character of the educational cabinet stands back of every selection of textbooks. An adoption in this state is a most significant and important endorsement of the textbook chosen.

---

**NEVADA** adopted the McMURRY AND PARKINS' GEOGRAPHIES three days after publication (August, 1921).

---

**WASHINGTON**—Every county to change geographies this fall has adopted the McMURRY AND PARKINS' GEOGRAPHIES.
